AT  
DEEP FORK TREE FARM  
OCTOBER 15!!

## PARK GRADE PRE-DUG AVAILABILITY

PARK GRADE trees are deeply discounted for any flaw rendering the tree less than first quality, such as 2-cane multi stem trees, or for damage that affects the appearance, but not the health of the tree. Trees may have wounds from sapsuckers, sunscald, hail or similar events, collisions w/equipment, broken branches or leaders or significant pruning scars. Wounds may be recent or nearly healed.

PARK GRADE trees are excellent for mitigation, screening, filling in large areas and any other use where appearance is not of primary importance, particularly in the short term.

BOTANICAL/COMMON NAME	2"	2.5"	3"	3.5"	4"	4.5"	5"	5.5"	6"	6.5"	Multi-stem
